### DETAILED ACTION

1. In view of amendment filed April 26, 2004, the rejection of claims 1-3, 6-11, 14, 16-18, 21-25, 28-29 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Yonek et al. (US 5,777,061) is withdrawn.

### Allowances

2. Claims 1-29 are allowed.
3. The following is an examiner's statement of reasons for allowance:

As of the date of this office action, the examiner has not located or identified any reference that can be used singularly or in combination with another reference including the closest prior art of Yonek et al. (US 5,777,061) to render the present invention anticipated or obvious to one of ordinary skill in the art.

*The invention of claims 1-29 relates to a **mixture** and process for making the same comprising (1) a **cross-linkable thermosetting resin** providing composition and intimately admixed therewith, (2) from about **0.01% to about <1.0%**, by weight, based on the weight of the mixture, of a **fluorocarbon additive** which is substantially non-*

Art Unit: 1713

*chemically reactive with said thermoset resin selected from the group consisting of a **fluorocarbon oil**, a **fluorocarbon gum**, a **fluorocarbon grease** and mixtures thereof, said **fluorocarbon additive having a lower surface energy than that of the thermoset resin** formed by cross-linking said composition.*

The closest prior art Yonek et al. (abstract; col. 15-16, claim 1, 8, 14) disclose a crosslinkable thermosetting resin comprising 0.05 to 7 weight percent of fluorine containing additive. However, Yonek et al. are silent on a mixture comprising a fluorocarbon additive that is substantially non-chemically reactive with said thermoset resin. Therefore, it would not be apparent to one of ordinary skill in art to use the crosslinkable thermosetting resin composition teachings of Yonek et al. to obtain the invention of claims 1-29. Claims 1-29 are allowed.

In light of the above discussion, it is evident as to why the present claims are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
